

CURRICULUM VITAE

Gordon Moller

ONZM DipArch FNZIA PPNZIA
Hon DLittWell Hon RAI

Philosophy

Gordon's philosophy has been to search for a meaning in architecture expressive of the New Zealand natural and urban environment. To do this his approach is to respect the environment in which the building or design is located and develop a design process with the client to create architecture with an evolving and responsive quality.

If the resulting buildings improve with age and use, then these fundamental goals are achieved and enhanced.

Work Undertaken

Commercial, public and educational buildings, hospitality, representational and Governmental buildings, urban design, commercial interior design, multi unit housing, single unit houses.
